

## Questions to ask your anesthesiologist.

- What type of anesthesia do you recommend for my breast augmentation procedure?  
Why?
- What are the risks attached to the recommended anesthetic?
- Will I receive written preoperative instructions?
- Who will be administering the anesthesia?
- Will I meet with an anesthesiologist before surgery?
- Will I be monitored during the surgery?
- Where will I recover?
- Who staffs the recovery room? Are they qualified to handle an emergency?
